Kingspan  **TITAN**

DESCRIPTION

The New ES650 – Slim, totally enclosed bunded tank is ideally suited to houses with limited space and access restrictions. It comes with similar features as the EcoSafe family which is available up to 10,000 litres.

The NEW EcoSafe ES650 Slim, has a small footprint of only 8ft². The lesser capacity of the tank makes it a more economical choice and as one of the lightest in weight and narrowest of any of the other bunded oil tanks, the tank is much easier for contractors to manoeuvre and fit through and into tight spaces.

The EcoSafe range of tanks are also a popular choice by installers as they are Easily fitted and maintained and come with a ready to install Watchman Alarm Tank Pack.

FEATURES

Integrally bunded tank eliminates the risk of leaks by providing secondary containment

Low maintenance, no rust and no painting

Comes complete with Watchman Alarm Tank Pack (see details)

1" BSP female bottom outlet as standard

2" BSP Offset fill

Handgrips moulded in for ease of handling

Lockable Lid

Tank tested to EN13341: 2005 + A1

Bund manufactured to OFTEC OFST100 standard

Made in a ISO9001, 14001 & 18001 factory

OPTIONAL EXTRAS

SpillStop overfill device

Top outlet

Tigerloop de-aerator

TANK DIMENSIONS

Capacity	650 litres / 172 gallons
Height	1350mm / (4'5")
Width	630mm / (2' 1")
Length	1260mm / (4'1")
Weight	85kg

BENEFITS

Enhances your overall heating system.

Safeguard property value against potential oil spills or ground contamination.

Courts now have powers to impose unlimited fines for oil polluters. The clean-up cost also falls to the polluter, which vary dependent on the severity of the oil spill.

Remote oil level monitor reduces the possibility of running out of fuel.

Watchman Alarm – Receiver monitors the level of oil from inside the house with a sudden drop alarm and low level alert features.

No need for external site gauges to monitor fuel level which eliminates a potential leak point. Experiences shows that external gauges are unreliable over time and can be prone to damage, vandalism or failure.

EcoSafe helps eliminate oil spills which can contaminate land and reduce your property value... FACT!

WATCHMAN ALARM TANK PACK for EcoSafe Tanks

All EcoSafe tanks come complete with a WatchmanAlarm tank pack.

Greatly reduces installation time.

Tank Pack consists of:

1. WatchmanAlarm Transmitter
2. WatchmanAlarm Receiver
3. PTFE Tape
4. Heldite
5. Heldite Applicator
6. Gate Valve and Filter

Parts shown are for a 10mm Bottom Outlet Kit.
